Project: #GrowWithMPS

Welcome to MPS!

Dear Parents of 2024 Primary One,

A warm welcome to you and your child as you embark on this exciting journey with us at Marsiling Primary School (MPS). We are thrilled to have you and your child join our MPS family. As we begin this wonderful journey together, we would like to introduce a special project for you and your child.

Imagine your child as a tiny seed, full of potential and ready to thrive in the right environment. This special project is for you to grow **microgreens*** together as a family. This project symbolises the idea of nurturing your child, just as you would care for a growing plant. By working on this project, you can instil our school values of Responsibility, Resilience, Care, and Excellence in your child while watching tiny seeds transform into a flourishing plant.

As your microgreens flourish, capture the growth in pictures. Share the moments of your family in action on Instagram with the hashtag **#GrowWithMPS** and tag our school's official Instagram account (@marsilingprimaryschool). This way, you can connect with other parents in the school community and share the joy of watching your child's and the microgreens' growth.

We look forward to seeing your microgreens thrive and witnessing the incredible growth of your child throughout his/her education journey at MPS. Remember to share your photos on Instagram, and let's embark on this journey together. With this, we would like to wish our new Marsilians and parents, a fulfilling 2024 ahead!

Mrs Heather Thio
Principal

*Microgreens are another name for any edible plant that is harvested and eaten at the seedling stage.
